The forklift used should have at least 5 tons capacity.
The fork dimensions should be as follows:
- Maximum fork thickness = 70 mm
- Maximum fork width = 150 mm
- Minimum fork carriage width = 1100 mm
- Minimum fork length = 2000 mm

Electrical connection:
- 3x400V+N+Pe / 50-60Hz / 25A / 6.7kW
- Wire: min 4 mm²
- Power consumption: 1.8 kWh (depends on usage)
- Pneumatics: ca. 400 l/min or 40 l/Cykl.

Total weight: 4360 kg
